NOTES:

1. In view of the continuing Covid-19 pandemic, the Ministry of Corporate Affairs (“MCA”) vide its circular dated January 13, 2021 and SEBI vide its circular dated January 15, 2021 permitted the holding of the Annual General Meeting (“AGM”) due in year 2021 through VC / OAVM, without the physical presence of the Members at a common venue. In compliance with the provisions of the Companies Act, 2013 (“Act”), SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“Listing Regulations, 2015 or SEBI (LODR) Regulations, 2015”) and SEBI & MCA Circular(s), the AGM of the Company is being held through VC / OAVM (herein after called as e-AGM).
2. A Member entitled to attend and vote at the meeting is entitled to appoint a proxy to attend and vote instead of himself/ herself and proxy need not be a member of the company. The proxies in order to be effective must be received by the company not less than 48 hours before the commencement of the meeting. Since this e-AGM is being held pursuant to the SEBI & MCA circular(s) through VC / OAVM, physical attendance of members has been dispensed with. Accordingly, the facility for appointment of proxies by the members will not be available for the e-AGM and hence, the proxy form and attendance slip are not annexed to this notice.
3. Since the e-AGM will be held through VC / OAVM, the Route Map is not annexed in this Notice.
4. Member Companies or Organisations are requested to send a copy of the resolution of their governing body authorising their representative to attend and vote at the e-AGM.
5. Members can raise questions during the meeting or in advance at investors@gichf.com However, it is requested to raise the queries precisely and in short at the time of meeting to enable to answer the same.
6. The attendance of the Members (member logins) attending the e-AGM will be counted for the purpose of reckoning the quorum under Section 103 of the Companies Act, 2013.
7. In terms of the provisions of Section 107 of the Companies Act, 2013, since the resolutions as set out in this Notice are being conducted through e-voting (including remote e-voting), the said resolutions will not be decided on a show of hands at the e-AGM.
8. The Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 and Regulation 17(11) of SEBI (LODR) Regulations, 2015, in respect of item no(s). **3 to 10** is given below and forms part of the Notice.
9. A brief profile of the Directors seeking appointment and/or re-appointment & their shareholding details is furnished and forming part of the notice as per Regulation 36(3) & Regulation 26(4) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.
10. The Register of Members and Share Transfer Books of the Company will remain closed from **September 18, 2021 (Saturday) to September 27, 2021 (Monday) (both days inclusive)** in connection with the Annual General Meeting and for the purpose of payment of dividend for the year 2020-21.
11. The dividend as recommended by the Board, if declared at the meeting, will be subject to deduction of tax at source and will be paid to those Members:

- a) Whose names appear as Members in the Register of Members of the Company after giving effect to valid share transfers in physical form lodged with the Company/ Registrar and Share Transfer agent on or before **September 17, 2021 (Friday)**, and
 - b) Whose names appear as Beneficial Owners in the list of Beneficial Owners on **September 17, 2021 (Friday)** furnished by National Securities Depository Ltd. (NSDL) and Central Depository Services (India) Ltd. (CDSL) for this purpose.
12. The Securities and Exchange Board of India (SEBI) has made it mandatory for all Companies to use the bank account details furnished by the Depositories for depositing dividend. Dividend will be credited to the Members' Bank Account through NECS wherever complete core banking details are available with the Company. In cases where the core banking details are not available, dividend warrants/Demand Drafts will be posted to their registered addresses, which may get delayed due to the pandemic situation.
 13. Members holding shares in physical form are requested to notify immediately any change in their address along with address proof, i.e. Electricity / Telephone Bill, Driving License or a copy of the Passport/Aadhar Card and bank particulars to the Company or its Registrar & Share Transfer Agent and in case their shares are held in dematerialised form, this information should be passed on directly to their respective Depository Participants and not to the Company/ RTA.
 14. Members are requested to update their PAN Number and Bank Account Particulars in the records of Company by sending the self-attested PAN Card copy and Original Cancelled cheque either to the Company directly or to the Registrar and Share Transfer Agent viz. **M/s. KFin Technologies Pvt. Ltd.**, Selenium, Tower B, Plot 31-32, Gachibowli, Financial District, Hyderabad-500032.
 15. In all correspondence with the Company, members are requested to quote their folio number(s) and in case their shares are held in the dematerialised form, they must quote their DP ID. and Client ID. No(s).
 16. In terms of Section 72 of the Companies Act, 2013, nomination facility is available to an individual Member. Members holding shares in physical form may utilise the nomination facility available by sending the prescribed Form No.SH-13 duly filled, to our Registrar and Share Transfer Agent viz. **M/s. KFin Technologies Pvt. Ltd.**, Selenium, Tower B, Plot 31-32, Gachibowli, Financial District, Hyderabad-500032.  17. Pursuant to proviso to Regulation 40 of SEBI (LODR) Regulations, 2015, trading in the securities of the company which are held in physical form are restricted except in case of transmission or transposition. Accordingly, shareholders who continue to hold their shares and other types of securities of listed companies in physical form will not be able to lodge the shares with company / RTA for further transfer. Hence, Shareholders are requested to convert their physical securities in demat form compulsorily if they wish to effect any transfer. Only the requests for transmission and transposition of securities in physical form, will be accepted by the Company/ RTA.
 18. In terms of the provisions of Section 124(5) of the Companies Act, 2013, money transferred to the Unpaid Dividend Account of the Company, which remain unclaimed and unpaid for a period of 7 years from the date on which it was first due for payment, are required to be transferred to the Investor Education and Protection Fund (IEPF) established by the Central Government pursuant to Section 125(1) of the Companies Act, 2013. The Company has sent final reminder letters to individual shareholders (at the address particulars available with the Company/RTA) to claim their unclaimed dividend before transferring the same to IEPF for F.Y. 2013-14 and also issued News Paper Notice in this regard. List of shareholders whose dividend remain unclaimed is also updated on the website of the Company. During the year 2020-21, the Company has deposited a sum of Rs. 18,77,090/- (Rupees Eighteen Lakh Seventy Seven Thousand and Ninety only) to Investor Education and Protection Fund of the Central Government, on account of unclaimed/ unpaid dividend for the year 2012-13.
 19. Pursuant to the provisions of Investors Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 Notified by MCA effective from September 7, 2016, all the shares in respect of which Dividend has not been claimed/paid by/to the shareholders respectively for seven consecutive years or more would be transferred to IEPF Suspense Account. The list of shareholders, whose shares are due for transfer have been updated on the website of the Company at https://gichfindia.com/pdf/IEPF-TRF-CASES-LIST_201314_31032021.pdf
 20. Those Members who have not encashed or received their dividend for the financial years 2013-14 to 2019-20 are requested to approach our Registrar and Share Transfer Agent viz. **M/s. KFin Technologies Pvt. Ltd.**, Selenium, Tower B, Plot 31-32, Gachibowli, Financial District, Hyderabad-500032.

21. The Members holding shares in more than one folio are requested to consolidate their folios by sending a request letter to the Company or to the Registrar and Share Transfer Agent of the Company. Consolidation of folios would facilitate one stop tracking of all corporate benefits and would reduce time and effort required for monitoring multiple folios. Consolidation of share certificates also helps in saving costs in case of dematerialisation and also provides convenience in holding shares physically.
22. All Documents as referred to in the Notice are open for inspection in electronic mode only. Members can inspect the same by sending an email to investors@gichf.com up to the date of the Annual General Meeting.

The Board recommends the Resolution at Item No. 7 to be passed as an Ordinary Resolution.

ITEM NO. 8: Appointment of Smt. Suchita Gupta (DIN 8697650) as Non-Executive Director.

Smt. Suchita Gupta (DIN 8697650), aged 57 years, holding master's degree in Commerce and a bachelor's degree in Law from University of Mumbai. She is a Fellow Member of the Insurance Institute of India ("III") and the Institute of Company Secretaries of India ("ICSI"). She was appointed as Additional Director (Non-Executive Director) on the Board of our Company on August 11, 2021 upto the conclusion of 31st AGM.

Smt. Suchita Gupta joined the General Insurance Corporation of India (GIC-Re) as a direct recruit officer in 1987. Prior to taking charge as CMD of National Insurance Company Ltd. on August 2, 2021, she has been General Manager & Company Secretary and Chief Financial Officer of the GIC Re where she was heading Finance, Life Re & Health, CMD & Board Secretariat, Coordination, Compliance, Investment (Mid & Back Office) departments of the Corporation.

The appointment of Smt. Suchita Gupta was recommended by Nomination and Remuneration Committee of the Company. The Company has received a notice in writing from a Member as per section 160 of Companies Act, 2013 proposing the candidature of Smt. Suchita Gupta, as Non-Executive Director whose period of office shall be liable to retire by rotation.

Since Smt. Suchita Gupta was appointed as Additional Director on August 11, 2021 i.e. post end of FY 2020-21 and accordingly, status of attendance of Board Meetings does not apply.

The other Directorships/ Committee memberships of Smt. Suchita Gupta are as follows:

Name of the Company	Board Membership	Statutory Committee Membership
National Insurance Co. Ltd.	CMD	CSR Committee - Chairperson Nomination & Remuneration Committee-Member
Agriculture Insurance Company of India Ltd.	Director	Risk Management Committee - Member

Smt. Suchita Gupta does not hold any share in the Company.

None of the Directors are related inter-se. Save and except Smt. Suchita Gupta none of the Directors or Key Managerial Personnel of the Company including their relatives is, in anyway concerned or interested in the Resolution.

The Board recommends the Resolution at Item No. 8 to be passed as an Ordinary Resolution.

Item No. 9: Private Placement of Redeemable Non-Convertible Debentures (NCDs)/Bonds.

As per Section 42 of the Companies Act, 2013 read with Rules framed there under, a Company offering or making an Invitation to subscribe to Secured/Unsecured Redeemable Non-Convertible Debentures (NCDs) / Bonds on a Private Placement basis, is required to take approval of Members by way of Special Resolution once in a year for all the offers or invitations for such Redeemable Non-Convertible Debentures/Bonds during the year.

Accordingly, seeing the long term borrowing requirement of the Company and to augment resources at a cheaper rate of interest, approval is sought to mobilize some more funds by way of issue of Redeemable NCDs/Bonds on private placement basis. SEBI vide its circular dated November 26, 2018 mandated listed Companies who are considered as Large Corporate (LC) to raise not less than 25% of its incremental borrowings, during the financial year subsequent to the financial year in which it is identified as a LC, by way of issuance of debt securities. Accordingly, our Company being a Large Corporate, is required to comply with the said SEBI Circular also.

Hence, considering the above requirements, we are seeking approval for issue of Secured/Unsecured Redeemable Non-Convertible Debentures (NCDs) / bonds on a Private Placement basis, for an aggregate amount upto ₹ 2500 crores (Rupees Two Thousand Five Hundred Crores only) which is within the overall limits of the Company as approved by Members from time to time.

Accordingly, the approval of Members is being sought by way of Special Resolution in compliance with the applicable provisions of the Act, read with Rules made there under, in the manner as set out in Item No. 9 of this Notice.

None of the Directors, Key Managerial Personnel of the Company and their relatives is, concerned or interested in this resolution, except to the extent of their respective shareholding, if any, in the Company.

The Board recommends the resolution set forth at Item No. 9 to be passed as Special Resolution.

ITEM NO. 10: Related Party Transactions upto an aggregate limit of ₹ 2,000 crores only.

Pursuant to provisions of the Companies Act, 2013 and in compliance with the provisions of SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015, the transactions in the nature of raising of funds through NCDs/Bonds, taking property on lease/rent, availing of services in the ordinary course of business or any other kind of transactions entered into by the Company up to an aggregate limit of ₹ 2000 Crores (Rupees Two Thousand Crores Only) which though in the ordinary course of business may be construed to be related party transactions with the conflict of interest, it is therefore proposed to Shareholders to approve as an Ordinary Resolution.

None of the Directors, Key Managerial Personnel of the Company and their relatives is, concerned or interested in this resolution, except to the extent of their respective shareholding, if any, in the Company.

The Board recommends the resolution set forth at Item No. 10 to be passed as an Ordinary Resolution.

MATERIAL CHANGES AFFECTING THE FINANCIAL POSITION OF THE COMPANY

COVID-19 Pandemic and its Impact on the Company:

The Covid-19 pandemic has impacted most economies and banking systems globally, including India. The nation-wide lockdown in April-May 2020 substantially impacted economic activity. The easing of lockdown measures subsequently led to gradual improvement in economic activity and progress towards normalcy. These developments resulted in regulatory measures like moratorium on payment of dues and standstill in asset classification to mitigate the economic consequences on borrow etc. It also resulted in increase in provisioning reflecting higher actual and expected additions to non-performing loans following the cessation of moratorium and asset classification standstill. The current second wave of Covid-19 pandemic, where the number of new cases has increased significantly in India, has resulted in re-imposition of localised/regional lockdown measures in various parts of the country. The impact of the second wave on the Company's results remains uncertain and dependent on future developments, which are often outside of the Company's control and accordingly, actuals may differ from the estimates used in the preparation of the financial statements on the reporting date.

The impact, including credit quality and provision, of the Covid-19 pandemic, on company, is uncertain and will depend on the spread of Covid-19, the effectiveness of current and future steps taken by the governments and central bank to mitigate the economic impact, steps taken by the company and the time it takes for economic activities to return to pre-pandemic levels. The Companies capital and liquidity position is strong.

HOLDING AGM

AGM of your Company is scheduled to be held on September 27, 2021 which is in line with statutory time lines as provided under the provisions of the Companies Act, 2013 and/or any other laws for the time being in force as may be applicable to the Company.

POLICY ON RELATED PARTY TRANSACTIONS

SCOPE AND PURPOSE

Related party transactions can present a potential or actual conflict of interest which may be against the best interest of the Company and its shareholders. Considering the requirements for approval of related party transactions as prescribed under the Companies Act, 2013 ("Act") read with the Rules framed there under and Regulation 23 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, GIC Housing Finance Limited ("GICHF" or "the Company") has formulated guidelines for identification of related parties and the proper conduct and documentation of all related party transactions.

Also as per Regulation 23, Listed Company is required to formulate a policy on materiality of related party transactions and dealing with related party transactions.

In light of the above, GICHF has framed this Policy on Related Party Transactions ("Policy"). This Policy has been adopted by the Board of Directors of the Company.

OBJECTIVE OF THE POLICY

The objective of this Policy is to set out (a) the materiality thresholds for related party transactions and; (b) the manner of dealing with the transactions between the Company and its related parties based on the Act, Listing Regulation, 2015 and any other laws and regulations as may be applicable to the Company.

PROCEDURE FOR APPROVAL OF RELATED PARTY TRANSACTIONS

The Company shall not enter into any contract or arrangement with a Related Party without the approval of the Audit Committee. Prior approval of the Audit Committee shall be obtained for all Related Party Transactions.

The Audit Committee may, in the interest of the conduct of affairs of the Company, grant omnibus approval for Related Party Transactions that are repetitive in nature, subject to the following conditions:

- The name/s of the related party, nature of transaction, period of transaction, maximum amount of transaction that can be entered into;
- The indicative base price / current contracted price and the formula for variation in the price, if any; and
- Such other conditions as the Audit Committee may deem fit.

The Audit Committee shall review, at least on a quarterly basis, the details of related party transactions entered into by the Company.

The Audit Committee may grant omnibus approval for related party transactions repetitive in nature which shall be valid for a period not exceeding one year and shall require fresh approvals after the expiry of one year.

In the event any contract or arrangement with a related party is not in the ordinary course of business or at arm's length, the Company shall comply with the provisions of the Companies Act, 2013 and the Rules framed there under and obtain approval of the Board and or its shareholders, as applicable, for such contract or arrangement.

All material related party transactions, other than those with Exempted Wholly Owned Subsidiaries (if any) will be placed for approval of the shareholders of the Company.

MATERIALITY THRESHOLD

A transaction with a related party is considered material if the transaction / transactions to be entered into, either individually or taken together with previous transactions with such related party during a financial year, exceeds ten percent of the annual consolidated turnover as per the last audited financial statements of the Company.

DISCLOSURES

Company shall disclose, in the Board's report, transactions prescribed in Section 188(1) of the Act with related parties, which are not in ordinary course of business or arm's length basis along with the justification for entering into such transaction.

- g) To carry out any other function as is mandated by the Board from time to time and / or enforced by any statutory notification, amendment or modification, as may be applicable.
- h) To perform such other functions as may be necessary or appropriate for the performance of its duties.

IV. APPOINTMENT AND REMOVAL OF DIRECTOR, KEY MANAGERIAL PERSONNEL AND SENIOR MANAGEMENT:

- a) The Committee shall identify and ascertain the integrity, qualification, expertise and experience of the person for appointment as Director, KMP or at Senior Management level and recommend his / her appointment, as per Company's Policy.
- b) A person should possess adequate qualification, expertise and experience for the position he / she is considered for appointment. The Committee has authority to decide whether qualification, expertise and experience possessed by a person is sufficient / satisfactory for the position.
- c) The Company shall not appoint or continue the employment of any person as Whole time Director who has attained the age of seventy years.

BOARD DIVERSITY:

Our Company recognises and embraces the benefits of having a diverse Board, and sees increasing diversity at Board level as an essential element in maintaining a competitive advantage. A truly diverse Board will include and make good use of differences in the skills, regional and industry experience, background, race, gender and other distinctions between Directors. These differences will be considered in determining the optimum composition of the Board and when possible should be balanced appropriately. All Board appointments are made on merit, in the context of the skills, experience, independence and knowledge which the Board as a whole requires to be effective. The Board Corporate Governance & Nominations Committee ('the Committee') reviews and assesses Board composition on behalf of the Board and recommends the appointment of new Directors. The Committee also oversees the conduct of the annual review of Board effectiveness. In reviewing Board composition, the Committee will consider the benefits of all aspects of diversity including, but not limited to, those described above, in order to enable it to discharge its duties and responsibilities effectively.

Term / Tenure:

1. Managing Director/Whole-time Director/Manager (Managerial Person):

The Company shall appoint or re-appoint any person as its Managerial person for a term not exceeding five years at a time. No re-appointment shall be made earlier than one year before the expiry of term.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

OVERVIEW OF THE INDIAN ECONOMY

The covid-19 epidemic is the first and foremost human disaster in 2020. More than 200 countries and territories have confirmed effective medical cases, caused by coronavirus declared a pandemic by the WHO. Indian Economy was greatly affected by the coronavirus (COVID-19) pandemic in various sectors in first half year of 2020. Intending to get hold of the pandemic situation, Government announced its first nation-wide lockdown in March 2020, which led to the economic slowdown. Consequently, international trade took a huge hit as well.

The COVID-19 Pandemic laid additional stress on the country's already struggling economy. With a GDP growth of just three percent in the fourth quarter of the financial year 2020, a drop of more than 20 percent in the next quarter came as a huge blow. The markets reacted differently to the crisis, which was reflected in their growth rate. The automotive market was hit the hardest by the lockdown, as it showed the maximum negative growth. While most industries were shaken to their core, financial, real estate, and professional services were estimated to incur huge losses.

Economists slashed GDP rates for the foreseeable future due to the obvious impact of the lockdown. However, it was also estimated that the country might bounce back quickly because its industry composition, with unorganized markets being largely dominant. Unsurprisingly, the most affected industries included services and manufacturing, specifically travel & tourism, financial services, mining and construction, with declining rates of up to 23 percent between April and June 2020. Towards the end of 2020, however, India saw some semblance of recovery across certain sectors. This was a result of easing restrictions, controlled infection rates and the festive season between October and November 2020.

The pandemic came with uncertainty and implications on all aspects of business across the world. Despite India being ahead of most countries in being able to implement work-from-home measures, specifically in white collar work, job and earning deficits, along with instability in prices was expected. The months of the lockdown resulted in the free fall of employment, which slowly stabilized after the economy steadied in most parts of the country.

Economic activity started to take a hit yet again since March 2021, as the country faced its second wave of the pandemic. Unprecedented numbers in terms of infections and deaths recorded across the country led to another set of lockdowns in some parts, burdening the healthcare system.

India's real GDP to record a growth of 11 per cent in 2021-22 and nominal GDP by 15.4 per cent-the highest since independence. The V-shaped economic recovery is supported by the initiation of a mega vaccination drive with hopes of a robust recovery in the services sector and prospects for robust growth in consumption and investment. According to the Economic Survey 2020-21 presented by the Ministry of Finance & Corporate Affairs, the rebound will be led by the low base and continued normalization in economic activities as the rollout of COVID-19 vaccines gathers traction. The fundamentals of the economy remain strong as gradual scaling back of lockdowns along with the astute support of Atmanirbhar Bharat Mission have placed the economy firmly on the path of revival.

INDIAN ECONOMY FUTURE OUTLOOK

The world economy is now experiencing diverging fortunes after being uniformly battered by the pandemic last year. Most advanced economies and some emerging economies are witnessing a strong recovery, while the rest of the world, including India, has fallen behind. The second wave of the pandemic has hit India hard, with state wide lockdowns stalling economic activity. Though the second wave is officially in decline, the virus is spreading to the hinterlands, pushing the economic recovery to uncharted territory. Most professional forecasters have slashed their growth projections for India to below 10% for FY22, with JP Morgan and Barclays paring it to 9% and 9.2%, respectively.

The Organisation for Economic Co-operation and Development (the 38-member intergovernmental organization) slashed India's growth projection for FY22 to 9.9% from 12.6% estimated in March as a resurgence of covid cases and lockdowns have threatened to stall the country's nascent economic recovery, provided the pandemic can be contained quickly, GDP (gross domestic product) growth could still be around 10% in 2021-22 and 8% in 2022-23.

The Reserve Bank of India expects the now ebbing second wave of the coronavirus disease pandemic in India to have only a small (1 percentage point) impact on the economy, and in fact, has projected that GDP growth will be faster than previously estimated in the third and fourth quarters of the year -- likely the impact of the ongoing vaccine drive. The Monetary Policy Committee of RBI, kept the policy rate unchanged, indicated that it would continue to do whatever is needed to support growth, and announced that it would pump in another ₹1.2 lakh crore of liquidity into the system this financial year through government bond purchases.

The second wave of COVID-19 (in 2021) has spread rapidly worldwide, especially in India, Latin America and the European countries. The global best practices focused on localising mini-containment zones, restricting movement, strengthening health infrastructure and accelerating vaccination drive. In April 2021, the average transmission rate of COVID-19 virus was observed to have dropped in countries with high vaccination rates. Recognising vaccination as a key pillar of the 'rapid testing, follow-up, treatment and COVID-19 appropriate behaviour' strategy, the government started Phase III of the vaccination drive for the 18-45 age group in May 2021. To accelerate the pace of vaccinations for all age groups across states, the government relaxed vaccine access and pricing.

It is projected by the experts that India's gross domestic product (GDP) will rebound strongly by 11 per cent in 2021-22 due to continued economic recovery boosted by increased public investment, vaccine rollout, and a surge in domestic demand. The government's boost to public investment through its infrastructure push, incentives for manufacturing, and continued support to boost rural incomes will support India's accelerated recovery.

HOUSING FINANCE INDUSTRY - STRUCTURE & DEVELOPMENTS

The housing loan market in the country witnessed a rebound and registered a year-on-year growth of 9.6 per cent in terms of portfolio outstanding (PoS) in the third quarter of FY2021, despite the Covid-19 pandemic. The portfolio outstanding of the sector stood at Rs 22.26 lakh crore as of December 2020, as compared to Rs 20.31 lakh crore as of December 2019, according to a quarterly report released by Credit Information Bureau CRIF High Mark. Affordable housing segment (ticket size up to Rs 35 lakh) constituted 90 per cent of the market by volume and nearly 60 per cent by value as of December 2020. Within the affordable segment, loans under ticket size of Rs 15 lakh comprised 70 per cent by volume and 38 per cent by value. According to the report, young borrowers and millennials (less than 36 years), with high aspirations and commensurate disposable incomes are increasingly being seen as an attractive audience for housing.

According to the data released by Department for Promotion of Industry and Internal Trade Policy (DPIIT), construction is the third-largest sector in terms of FDI inflow. FDI in the sector (including construction development and construction activities) stood at US\$ 42.97 billion between April 2000 and September 2020.

Housing loan rate is low in India when compared with developing economies, presenting opportunities for the growth of home loan market in the country. Moreover, government push towards affordable housing coupled with acute shortage of housing is further expected to drive India home loan over the next five years. Banks dominated the market in 2020, 2021 and the trend is likely to continue in the forthcoming years as well. This is due to the fact that banks offer attractive interest rates when compared with housing finance companies.

HFCs have been facing big challenges since mid-2019, and now the impact is clearly being witnessed in their home loans. Notably, disbursement of loans have slowed down from HFCs, which as per an India Ratings research note. This is believed to have had a spillover impact on both retail home loan borrowers and property developers. However, while HFCs are trying to ensure their lending businesses do not fall precariously, state-owned and private banks have become the new harbor for home loans. With back-to-back cut in policy repo rates, banks have also reduced their benchmark MCLR. In fact, even country's leading banks have also revised their home loan rates downward, making EMLs cheaper. Now, HFCs are facing stiff competition from banks when it comes to financing housing loans.

OPPORTUNITIES & THREATS

In India, the real estate sector is the second-highest employment generator, after the agriculture sector. It is also expected that this sector will incur more non-resident Indian (NRI) investment, both in the short term and the long term. Real estate sector in India is expected to reach a market size of US\$ 1 trillion by 2030 from US\$ 120 billion in 2017 and contribute 13% to the country's GDP by 2025.

Indian real estate sector has witnessed high growth in the recent times with rise in demand for office as well as residential spaces. Indian real estate attracted US\$ 5 billion institutional investments in 2020, equivalent to 93% of transactions recorded in the previous year. Investments from private equity (PE) players and VC funds reached US\$ 4.06 billion in 2020. Government of India along with the governments of respective States has taken several initiatives to encourage development in the sector. The Smart City Project, with a plan to build 100 smart cities, is a prime opportunity for real estate companies. Under Union Budget 2021-22, tax deduction up to Rs. 1.5 lakh (US\$ 2069.89) on interest on housing loan, and tax holiday for affordable housing projects have been extended until the end of fiscal 2021-22. The Atmanirbhar Bharat 3.0 package announced by Finance Ministry in November 2020 included income tax relief measures for real estate developers and homebuyers for primary purchase/sale of residential units of value (up to Rs. 2 crore (US\$ 271,450.60) from November 12, 2020 to June 30, 2021). SEBI has given its approval for the Real Estate Investment Trust (REIT) platform, which will allow all kind of investors to invest in the Indian real estate market.

The residential sector is expected to grow significantly, with the central government aiming to build 20 million affordable houses in urban areas across the country by 2022, under the ambitious Pradhan Mantri Awas Yojana (PMAY) scheme of the Union Ministry of Housing and Urban Affairs. India's home loan market is seeing intense competition with banks and non-bank financial companies vying for a slice of the most secure credit segment. This, along with the benign interest rate regime, are beginning to put pressure on spreads that housing finance companies earn.

KEY CHALLENGES FACED BY HFCS

The COVID-19-induced lockdown has impacted the HFCs up to a great extent and is further likely to pose several challenges for the sector. Currently, the top quartile of the HFCs is clocking the same monthly numbers which they were doing during the pre-lockdown period. With people facing depletion in cash flows due to job loss, the sale of fresh houses has taken a hit. People are delaying their home purchase decisions till the time they find their cash flows stabilising. Considering the loss of business during lockdown and muted growth post moratorium, the credit growth expected in the industry would also be hard to come by. With reduced cash flows during moratorium phase and the possible impact on the cash flows due to restructuring relief offered to the customers; liquidity management has taken extreme priority. For small players in the field, where the bank lines are scarce, the priority is to keep enough liquidity to be able to repay the debt obligations on time and to keep the fresh customer acquisition engine running. Needless to say, COVID-19 is testing the fundamentals of HFCs to the hilt and compelling them to evolve and re-invent their systems on the go. Hopefully, the Housing Loan sector would be more resilient and fundamentally sound in the post-pandemic era.

The Government's initiatives are majorly aimed to ensure that the low-income population has access to affordable housing in the times to come. However, given the augmenting needs of the people, a lot is expected further from the Government on this front. To expand the scope of 'Housing for All', the Finance Ministry proposed an extension in the eligibility of home loans for affordable housing till March 31, 2022. The provisions to boost the country's affordable housing segment also included tax exemption for notified affordable rental housing projects. The proposed initiatives of the Government to bring the weaker section of the population within the ambit of formal housing are commendable. It is largely anticipated that the policy momentum is expected to gather pace in government circles and set the tone for accelerated actionable outcomes around low-income housing. Factors such as spiralling land costs, long gestation periods and weak demand from marginalised communities on account of low affordability have impeded the smooth flow of capital in the affordable housing segment where HFCs will have a pivotal role in stimulating demand and providing low-cost capital in the form of gap funding to finance home loans of beneficiaries belonging to the LIG and EWS segments.

INDEPENDENT AUDITOR’S REPORT

TO THE MEMBERS OF GIC HOUSING FINANCE LIMITED ON THE AUDIT OF THE FINANCIAL STATEMENTS

Report on the Audit of the Financial Statements

Opinion

We have audited the Financial Statements of GIC Housing Finance Limited (hereinafter referred to as “the Company”), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including other comprehensive income), Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the Financial Statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021 and profit, total comprehensive income, changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing specified under sub-section (10) of section 143 of the Act (“the SAs”). Our responsibilities under those SAs are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (“the ICAI”) together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 42 to the Financial Statements on possible effects of COVID-19 pandemic.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

Key Audit Matter	How the matter was addressed in our audit
<p>Expected Credit Loss - Impairment of carrying value of loans and advances</p> <p>Profit before Tax for F.Y. 20-21 was ₹ 13,455 lakh after considering an impairment of ₹ 18,517 lakh vis-à-vis Profit before Tax for F.Y. 19-20 was ₹ 11,227 lakh after considering an impairment of ₹ 9,970 lakh.</p> <p>Under Ind AS 109, Expected Credit Loss (ECL) is required to be determined for recognising impairment loss on financial assets which are stated at amortised cost or carried at fair value through other comprehensive income. The calculation of impairment loss or ECL is based on significant management estimates and judgements, which are as under:</p> <ul style="list-style-type: none"> Judgements about credit risk characteristics for collective evaluation of impairment under various stages of ECL. Loan staging criteria Calculation of Probability of Default (PD) and Loss Given Default (LGD). 	<p>We performed audit procedures set out below:</p> <ul style="list-style-type: none"> Read the Company’s Ind-AS 109 based impairment provisioning policy Understood and assessed the Company’s process and controls on measurement and recognition of impairment in the loan portfolio. Test checked loans in stage 1, 2 and 3 to ascertain that they were allocated to the appropriate stage. Test checked PD and LGD calculation workings performed by management, including testing data used in assessment and evaluation of whether the results support appropriateness of the PDs at portfolio level. Test checked basis of collateral valuation in the determination of ECL provision.

Key Audit Matter	How the matter was addressed in our audit
<ul style="list-style-type: none"> Consideration of probability scenarios and forward looking macro-economic factors <p>ECL requires a large variety of data as an input to the model. Our audit procedures included verifying, testing and reviewing the design and operating effectiveness of the IT system by verifying the reports/returns and other financial and non-financial information generated from the system on a test check basis. We also tested key automated and manual business cycle controls and logic for system generated reports relevant to the audit and performed alternate procedures to assess whether there were any unaddressed IT risks that would materially impact the Financial Statements. We have also obtained management representations wherever considered necessary.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Director's report and Management Discussion & Analysis (MD&A) report but does not include the Financial Statements and our auditor's report thereon. The Director's report and MD&A report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Other Information, if, we conclude that there is a material misstatement therein, we are required to communicate the matters to those charged with governance.

Management's Responsibilities for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in sub-section (5) of Section 134 of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial

performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii. Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under the section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v. Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the financial year ended March 31, 2021 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when,

in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

(REFERRED TO IN PARAGRAPH 2(F) UNDER 'REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS' SECTION OF OUR REPORT TO THE MEMBERS OF GIC HOUSING FINANCE LIMITED OF EVEN DATE)

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE AFORESAID FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION (3) OF SECTION 143 OF THE COMPANIES ACT, 2013 (THE 'ACT')

We have audited the internal financial controls with reference to financial reporting of GIC Housing Finance Limited (hereinafter referred to as "the Company") as of March 31, 2021 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management and Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the Institute of Chartered Accountants of India and the standards on Auditing prescribed under sub-section (10) of Section 143 of the Act, to the extent applicable to the audit of internal financial controls with reference to Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial reporting and their operating effectiveness. Our audit of internal financial controls with reference to Financial Statements included obtaining an understanding of internal financial controls with reference to Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to Financial Statements.

Meaning of Internal Financial Controls with reference to Financial Statements.

A Company's internal financial control with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls With reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial control with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to Financial Statements and such internal financial controls were operating effectively as at March 31, 2021, based on the internal financial controls with reference to Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

Note 1: Corporate information

GIC Housing Finance Limited ('the Company') is a Public Limited Company incorporated under the provisions of Companies Act, 1956 with its registered office in Mumbai to carry on the business of Housing Finance in India. The Company is registered with the National Housing Bank ("NHB"). The shares/securities of the Company are listed on the Bombay Stock Exchange and/or the National Stock Exchange.

Note 2: Significant Accounting Policies, Accounting Judgements, Estimates and Assumptions:

2.1: Basis of Preparation and Presentation

a. Statement of Compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind-AS) notified under section 133 of Companies Act, 2013 ("the Act") and the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and the guidelines issued by the National Housing Bank ("NHB") and Reserve Bank of India (RBI) to the extent applicable and the relevant provisions of the Act.

The Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity are prepared and presented in the format prescribed in the Division III of Schedule III to the Act. The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". The Company presents its Balance Sheet in the order of liquidity.

b. Basis of preparation of Financial Statements

The Company has prepared these Financial Statements, which comprise the Balance Sheet as at March 31, 2021, Statement of Profit and Loss, Statement of Cash Flows and Statement of Changes in Equity for the year ended March 31, 2021, and accounting policies and other explanatory information (together hereinafter referred to as "Financial Statements") on the historical cost basis except for certain financial instruments and certain employee benefit assets, which are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

A historical cost is a measure of value used in accounting in which the price of an asset on the balance sheet is based on its nominal or original cost when acquired by the company.

The financial statements are prepared on a going concern basis, as the Management is satisfied that the Company shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on going concern assumption. In making this assessment, the Management has considered a wide range of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources. The outbreak of COVID-19 has not affected the going concern assumption of the Company.

The Company generally reports financial assets and financial liabilities on a gross basis in the Balance Sheet. They are offset and reported net only when Ind AS specifically permits the same or it has an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event. Similarly, the Company offsets incomes and expenses and reports the same on a net basis when permitted by Ind AS.

The audited financial statements were subject to review and recommendation of Audit Committee and approval of Board of Directors. On June 28, 2021, Board of Directors of the Company approved and recommended the audited financial statements for consideration and adoption by the shareholders in its ensuing Annual General Meeting.

The financial statements are presented in Indian Rupees (INR/₹) which is also the functional currency of the Company and all values are rounded to the nearest lakh except when otherwise stated.

c. Fair Value measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

Fair value measurements are categorized within the fair value hierarchy into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

d. Significant Accounting Judgements, Estimates and Assumptions

The preparation of the Financial Statements in conformity with Ind AS requires the Management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period.

The estimates, judgements and assumptions used are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/materialised. The management believes that the estimates used in the preparation of Financial Statements are prudent and reasonable.

(i) Evaluation of Business Model

Classification and measurement of financial instruments depends on the results of the solely payments of principal and interest on the principal amount outstanding (“SPPI”) and the business model test. The Company determines the business model at a level that reflects how the Company’s financial instruments are managed together to achieve a particular business objective.

The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company’s continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those instruments.

(ii) Determination of Expected Credit Loss (“ECL”)

The measurement of impairment losses (ECL) across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows based on Company’s historical experience and collateral values when determining impairment losses along with the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

Elements of the ECL models that are considered accounting judgements and estimates include:

- Bifurcation of the financial assets into different portfolios when ECL is assessed on collective basis.
- The classification of loan portfolio into various stages based on the number of days overdue.
- Value of collaterals considered for loan loss allowance.
- Company’s criteria for assessing if there has been a significant increase in credit risk. Development of ECL models, including choice of inputs / assumptions used.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

(iii) Effective interest rate computation

Computation of effective interest rate involves significant estimates and judgements with respect to expected loan tenure (period within which all cash flows pertaining to such financial instruments are expected to be received), nature and timings of such estimated cash flows considering the contractual terms of the financial instrument. These estimations are done considering various factors such as historical behaviour patterns of the instrument with respect to average repayment period and cash flows behaviours. Such estimates and assumptions are reviewed by the company at each reporting date and changes, if any are given effect to.

(iv) Fair Value Measurements

In case of financial assets and financial liabilities recorded or disclosed in financial statements the company uses the quoted prices in active markets for identical assets or based on inputs which are observable either directly or indirectly for determining the fair value. However in certain cases, the Company adopts valuation techniques and inputs which are not based on market data. When Market observable information is not available, the Company has applied appropriate valuation techniques and inputs to the valuation model.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Information about the valuation techniques and inputs used in determining the fair value of Investments.

(v) Income Taxes

The Company's tax jurisdiction is in India. Significant judgements are involved in determining the provision for direct and indirect taxes, including amount expected to be paid/recovered for certain tax positions.

(vi) Provisions and Liabilities

Provisions and liabilities are recognised in the period when they become probable that there will be an outflow of funds resulting from past operations or events that can be reasonably estimated. The timing of recognition requires judgment to existing facts and circumstances which may be subject to change.

(vii) Defined Benefit Plans

The cost of the defined benefit plan and the present value of the obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

2.2. Significant Accounting Policy

a. Property, plant and equipment (PPE)

PPE is recognised when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. PPE are stated at cost of acquisition, less accumulated depreciation and accumulated impairment losses, if any. Direct costs are capitalised until the assets are ready for use and include freight, duties, taxes and expenses incidental to acquisition and installation.

Subsequent expenditure related to an item of PPE is added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

For transition to Ind AS, the Company has elected to adopt as deemed cost, the opening written down value as per Previous GAAP on the transition date of April 1, 2017.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

Depreciation is provided on written down value method ("WDV") over the estimated useful lives of the assets specified in Schedule II of the Companies Act, 2013. Individual assets costing up to ₹ 5,000 are fully depreciated in the year of acquisition. The estimated useful lives of Property, Plant and Equipment are as stated below:

Particulars	Useful lives
Office Equipment	5 years
Buildings	60 years
Furniture & Fixtures	10 years
Vehicle (Motor cycles, scooters and other mopeds)	10 years
Vehicle (Motor cars)	8 years
Computers	3 years
Servers and networks equipment	6 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Depreciation on impaired PPE asset is provided on the revised carrying amount of the asset over its remaining useful life.

Property, Plant and Equipment not ready for the intended use on the date of Balance sheet are disclosed as "Capital Work-in-progress" and carried at cost.

b. Intangible Assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any.

Intangible Assets i.e. computer software are amortized on a straight line basis over the estimated useful life of 5 years.

Amortisation on impaired intangible asset is provided on the revised carrying amount of the asset over its remaining useful life.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the disposal proceeds and the carrying amount of the asset and are recognised as income or expense in the Statement of Profit and Loss.

Intangible assets not ready for the intended use on the date of Balance sheet are disclosed as "Intangible assets under developments".

c. Assets held for Sale

Assets are classified as held for sale if their carrying amount is intended to be recovered principally through a sale (rather than through continuing use) when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sale of such asset and the sale is highly probable and is expected to qualify for recognition as a completed sale within one year from the date of classification.

The Company repossess properties or other assets to settle outstanding recoverable and the surplus (if any) post auction is refunded to the obligors. These assets physically acquired by the company under SARFASI Act, 2002 and where sale is highly probable have been classified as Assets Held for Sale, as their carrying amounts will be recovered principally through a sale of asset. In accordance with Ind AS 105, the company is committed to sell these assets. Assets classified as held for sale are measured at lower of their carrying amount and fair value less costs to sell.

d. Impairment of Assets other than financials assets

The Company assesses at each Balance Sheet date whether there is any indication that an asset other than financial asset may be impaired. If such indication exists, the PPE, intangible assets and investment property are tested for impairment so as to determine the impairment loss, if any.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

Impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is the higher of fair value less costs of disposal and value in use.

If recoverable amount of an asset is estimated to be less than its carrying amount, such deficit is recognised immediately in the Statement of Profit and Loss as impairment loss and the carrying amount of the asset is reduced to its recoverable amount.

When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss.

e. Financial Instruments

(i) Recognition

Financial assets and financial liabilities are recognized when an entity becomes a party to the contractual provisions of the instrument. Purchase and sale of financial assets are recognised on the trade date, which is the date on which the Company becomes a party to the contractual provisions of the instrument.

(ii) Initial measurement

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at Fair Value through Profit or Loss (FVTPL)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at Fair Value through Profit or Loss are recognised immediately in Statement of Profit and Loss.

In addition, on initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTOCI as at FVTPL if doing so eliminates or significantly reduces accounting mismatch that would otherwise arise.

(iii) Financial Assets

A. Classification of Financial Assets and Subsequent Measurement

On initial recognition, a financial asset is classified to be measured at -

- Amortised cost; or
- Fair Value through Other Comprehensive Income (FVTOCI); or
- Fair Value through Profit or Loss (FVTPL)

All recognised financial assets that are within the scope of Ind AS 109 are required to be subsequently measured at amortised cost or fair value on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. Debt instruments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual terms of financial assets give rise specify date to cash flows that are solely payments of principal and interest on the principal amount outstanding (SPPI), are subsequently measured at amortised cost.

A debt instrument is classified as FVTOCI only if it meets both of the following conditions and is not recognised at FVTPL:

- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

The Company determines its business model at the level that best reflects how it manages a group of financial assets to achieve its business objective and is not assessed on instrument to instrument basis, but at a higher level of aggregated portfolios. At initial recognition of a financial asset, the Company determines whether newly recognised financial assets are part of an existing business model or whether they reflect a new business model.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the Other Comprehensive Income (OCI). However, the Company recognises interest income & impairment losses in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

All equity investments in scope of Ind AS 109 are measured at fair value are classified as at FVTPL. The Company may make an irrevocable election to present certain equity investments measured at fair value through other comprehensive income. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, on sale/disposal the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

All other financial assets are classified as measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains and losses arising on re-measurement recognised in Statement of Profit and Loss.

B. Derecognition of Financial Assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset and/or substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company transfers the financial assets but retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain/loss that had been recognised in OCI and accumulated in equity is recognised in the Statement of Profit and Loss, with the exception of equity investment designated as measured at FVTOCI, where the cumulative gain/loss previously recognised in OCI is not subsequently reclassified to the Statement of Profit and Loss.

C. Modification of contractual cash flows

A modification of a financial asset occurs when the contractual terms governing the cash flows of a financial asset are renegotiated or otherwise modified between initial recognition and maturity of the financial asset. A modification affects the amount and/or timing of the contractual cash flows either immediately or at a future date. In addition, the introduction or adjustment of existing covenants of an existing loan would constitute a modification even if these new or adjusted covenants do not yet affect the cash flows immediately but may affect the cash flows depending on whether the covenant is or is not met (e.g. a change to the increase in the interest rate that arises when covenants are breached).

When a financial asset is modified, the Company assesses whether this modification results in derecognition. In accordance with the Company's policy, a modification results in derecognition when it gives rise to substantially different terms.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

When the contractual cash flows of a financial asset are renegotiated or otherwise modified, and the renegotiation or modification does not result in the derecognition of that financial asset, the Company recalculates the gross carrying amount of the financial asset and shall recognise a modification gain or loss in profit or loss. The gross carrying amount of the financial asset shall be recalculated as at the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets) or, when applicable, the revised effective interest rate.

D. Reclassification of Financial Assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Original classification	Revised classification	Accounting treatment
Amortised cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognised in Statement of Profit and Loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognised in OCI is reclassified to Statement of Profit and Loss at the reclassification date.

E. Impairment of Financial Assets

Company recognizes loss allowances using the Expected Credit Loss ("ECL") model for the financial assets which are not fair valued through profit and loss as per board approved policy. The Company uses expected credit loss ("ECL") allowance for financial assets, which are not individually significant, and comprise of a large number of homogeneous assets that have similar characteristics.

(i) Measurement of Impairment

The expected credit loss is a product of exposure at default, probability of default and loss given default.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

The Company has used past data to observe actual defaults for potential credit losses. The estimates from the above sources have been adjusted with forward looking inputs from anticipated change in future macro-economic conditions.

ECL is required to be measured through a loss allowance at an amount equal to:

- 12-month ECL, i.e. ECL that results from those default events on the financial instrument that are possible within 12 months after the reporting date; or
- full lifetime ECL, i.e. lifetime ECL that result from all possible default events over the life of the financial instrument.

A loss allowance for full lifetime ECL is required for a financial instrument if the credit risk on that financial instrument has increased significantly since initial recognition. For all other financial instruments, ECLs are measured at an amount equal to the 12-month ECL.

The company has established a policy to perform an assessment at the end of each reporting period whether a financial instrument's credit risk has increased significantly since initial recognition by considering the change in the risk of default occurring over the remaining life of the financial instruments.

Based on the above process, the company categorises its loans into Stage 1, Stage 2 and Stage 3 as described below:

Stage 1: When loans are first recognised, the Company recognises an allowance based on 12 month ECL. Stage 1 loans also include facilities where the credit risk has improved and the loan has been reclassified from Stage 2 to Stage 1.

Stage 2: When a loan has shown an increase in credit risk since origination, the Company records an allowance for the life time expected credit losses. Stage 2 loans also include facilities, where the credit risk has improved and the loan has been reclassified from Stage 3 to Stage 2.

Stage 3: When loans shows significant increase in credit risk and/or are considered credit-impaired, the company records an allowance for the life time expected credit losses.

The Company measures ECL on an individual basis, or on a collective basis for portfolios of loans that share similar economic risk characteristics. This expected credit loss is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

Key elements of ECL computation are outlined below:

- Exposure at Default (EAD) is an estimate of the exposure at a reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities.
- Probability of default ("PD") is an estimate of the likelihood that customer will default over a given time horizon. A default may only happen at a certain time over the assessed period, PD is calculated based on default summary of past years using historical analysis.
- Loss given default ("LGD") estimates the loss which Company incurs post customer default. It is computed using as value of collateral and it is usually expressed as a percentage of the Exposure at default ("EAD").

(ii) Significant increase in credit risk

The Company monitors all financial assets and loan commitments that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognised. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort, based on the Company's expert credit assessment.

(iii) Credit impaired financial assets

A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Credit-impaired financial assets are referred to as Stage 3 assets. Evidence of credit-impairment includes observable data about the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- the disappearance of an active market for a security because of financial difficulties; or

A loan is considered credit-impaired when a concession is granted to the borrower due to a deterioration in the borrower's financial condition, unless there is evidence that as a result of granting the concession the risk of not receiving the contractual cash flows has reduced significantly and there are no other indicators of impairment.

(iv) Definition of default

The definition of default is used in measuring the amount of ECL and in the determination of whether the loss allowance is based on 12-month or lifetime ECL.

Default considered for computation of ECL is based on both qualitative and quantitative indicators such as overdue status and non-payment on another obligation of the same counterparty are key inputs in this analysis.

F. Write-off

Loans and debt securities are written off when the Company has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This is the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. A write-off constitutes a derecognition event. The Company may apply enforcement activities to financial assets written off. Recoveries resulting from the Company's enforcement activities will result in impairment gains.

(iv) Financial Liabilities and Equity Instruments

A. Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

B. Equity Instrument

An instrument that evidences a residual interest in the assets of an entity after deducting all of its liabilities is an equity instrument. Equity instruments issued are recognised at the proceeds received, net of direct issue costs.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

C. Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest rate method or at FVTPL.

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or it is designated as at FVTPL.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method.

D. Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between the Company and the lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

(v) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet only if there is an enforceable legal right to offset the recognised amounts with an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

f. Employee Benefits

(i) Defined contribution plan

Defined contribution plans include contributions to Provident Fund, Employees' Pension Scheme and Employee State Insurance Scheme, recognized as employee benefit expenses the Statement of Profit and Loss based on the amount of contribution as and when the services are received from the employees.

(ii) Defined benefit plans

For defined benefit retirement benefit plans such as Gratuity plan and compensated absences, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at the end of each reporting date.

Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expenses'. Curtailment gains and losses are accounted for as past service costs.

Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the Balance Sheet with a charge or credit recognised in other comprehensive income in the year in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss.

Past service cost is recognised in profit or loss in the year of a plan amendment or when the Company recognises corresponding restructuring cost whichever is earlier.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

For the purpose of gratuity, the Company has obtained a qualifying group gratuity insurance policy from Life Insurance Corporation of India. The fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognise the obligation on a net basis.

(iii) Short-term and long-term employee benefits

Employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits and are expensed in the period in which the employee renders the related service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

g. Provisions, Contingent Liabilities and contingent assets

Provisions are recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation.

When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements. Contingent assets are disclosed where an inflow of economic benefits is probable. Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

When there is a possible obligation or a present obligation, in respect of which the likelihood of outflow of resources is remote no provision or disclosure is made.

h. Commitments

Commitments are future liabilities for contractual expenditure. The commitments are classified and disclosed as follows:

- i. The estimated amount of contracts remaining to be executed on capital account and not provided for; and
- ii. Other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of the Management.

i. Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured and there exists reasonable certainty of its recovery.

(i) Income on loans

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time proportion basis, by reference to the principal outstanding and applicable effective interest rate (EIR).

EIR is the rate that discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset. EMI commences once when the entire loan is disbursed. Pending Commencement of EMIs, Pre-EMI interest is payable every month.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

The EIR (and therefore, the amortised cost of the asset) is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the asset. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan.

Interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit-impaired financial assets, interest income is calculated by applying the EIR to the gross carrying amount less the allowance for expected credit losses.

Penal Interest and other related charges are recognised as income only when revenue is virtually certain which generally coincides with receipts.

(ii) Investment Income

Dividend income from investments is recognised when the Company's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of dividend income can be measured reliably).

Income from interest on bank deposits and other interest bearing securities is recognized on the time proportion basis taking into account the amount outstanding and the rate applicable.

(iii) Fee and Commission Income

Fee and commission income include fee other than those that are an integral part of EIR. The fee included in this part of the Company's Statement of Profit and Loss include, among other things, fee charged for servicing a loan. The Company recognises the fee and commission income in accordance with the terms of the relevant contract / agreement and when it is probable that the Company will collect the consideration.

Fee and commission expenses in respect of services availed are recognised as the services are received.

(iv) Other Income

Other Income represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

j. Leases

The Company assesses whether a contract contains a lease, at the inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company considers whether (i) the contract involves the use of identified asset; (ii) the Company has substantially all of the economic benefits from the use of the asset through the period of lease and (iii) the Company has right to direct the use of the asset.

(i) As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the site on which it is located, less any lease incentives received.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. The right-of-use assets and lease liabilities include these options when it is reasonably certain that the option will be exercised.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprises of fixed payments, including in-substance fixed payments, amounts expected to be payable under a residual value guarantee and the exercise price under a purchase option that the Company is reasonably certain to exercise & lease payments in an optional renewal period, if the Company is reasonably certain to exercise an extension option.

The lease liability is subsequently measured at amortised cost using the effective interest method.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Lease liability and the right of use asset have been separately presented in the balance sheet and lease payments have been classified as financing activities.

The Company has elected not to recognise right-of use assets and lease liabilities for short term leases that have a lease term of less than or equal to 12 months with no purchase option and assets with low value leases. The Company recognises the lease payments associated with these leases as an expense in statement of profit and loss over the lease term. The related cash flows are classified as operating activities.

k. Taxes

(i) Current Tax

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws.

(ii) Deferred Taxes

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary difference can be utilised.

Such deferred tax assets and liabilities are not recognised if the temporary differences arise from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting year and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting year.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(iii) Current and Deferred Tax for the year

Current and Deferred tax are recognised in profit or loss, except when they are relating to items that are recognised in the other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

l. Investments in Subsidiaries, Joint Ventures and Associates

Investments in Subsidiaries and Associates are measured at cost as per Ind AS 27 - Separate Financial Statements.

m. Borrowing costs

Borrowing costs include interest expense calculated using the EIR on respective financial instruments measured at amortised cost.

n. Foreign currencies

In preparing the financial statements of, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Statement of Profit and Loss.

Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise.

o. Cash and cash equivalents

Cash and cash equivalent in Balance Sheet comprise of cash at bank, cash and cheques on hand and short-term deposits with an original maturity of three months or less which are subject to insignificant risk of changes in value.

p. Statement of Cash Flow

Cash flows are reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities are segregated based on the activities of the Company.

q. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM).

The Managing Director & CEO is identified as the Chief Operating Decision Maker (CODM) by the management of the Company. CODM has identified only one operating segment of providing loans for purchase, construction, repairs renovation etc. and has its operations entirely within India.

r. Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average numbers of equity shares outstanding during the year are adjusted for events including a bonus issue, bonus element in right issue to existing shareholders, share split, and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares divided by weighted average no. of equity shares year which are adjusted for the effects of all dilutive potential equity shares.

s. Exceptional Items

When items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such items is disclosed separately as Exceptional items.

t. Dividend

Final dividend on equity shares are recorded as a liability on the date of the approval by the shareholders and interim dividend are recorded as liability on the date of declaration by the Company's Board of Directors.

Note 34.3 : Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique.

The Company evaluates the significance of financial instruments and material accuracy of the valuations incorporated in the financial statements as they involve a high degree of judgment and estimation uncertainty in determining the carrying values of financial assets and liabilities at the balance sheet date. Fair value of financial instruments is determined using valuation techniques and estimates which, to the extent possible, use market observable inputs, but in some cases use non-market observable inputs. Changes in the observability of significant valuation inputs can materially affect the fair values of financial instruments. In determining the valuation of financial instruments, the Company makes judgments on the amounts reserved to cater for model and valuation risks, which cover both Level 2 and Level 3 instruments, and the significant valuation judgments in respect of Level 3 instruments.

Fair Value Hierarchy

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as explained below.

Assets and liabilities carried at fair value or for which fair values are disclosed have been classified into three levels according to the observability of the significant inputs used to determine the fair values. Changes in the observability of significant valuation inputs during the reporting period may result in a transfer of assets and liabilities within the fair value hierarchy. The Company recognises transfers between levels of the fair value hierarchy when there is a significant change in either its principal market or the level of observability of the inputs to the valuation techniques as at the end of the reporting period.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

Level 1 : inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date; Level 2 : inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and Level 3 : inputs are unobservable inputs for the asset or liability.

The following table analyses financial instruments measured at fair value at the reporting date, by the level in the fair value hierarchy into which the fair value measurement is categorised. The amounts are based on the values recognised in the statement of financial position.

There were no transfers between Level 1, Level 2 and Level 3 during the year

Valuation technique used to determine fair value

Equity instruments

Equity instruments in non-listed entities are initially recognised at transaction price and re-measured (to the extent information is available) and valued on a case-by-case basis and classified as Level 3.

Valuation adjustments and other inputs and considerations

A one percentage point change in the unobservable inputs used in fair valuation of Level 3 financial assets does not have a significant impact in its value.

Other Financial Assets and Liabilities

With respect to Bank Balances and Cash and Cash Equivalents, Loans, Other Financial Assets, Trade Payables and Other Financial Liabilities, the carrying value approximates the fair value.

Note 35 : Financial Instruments

Note 35 A : Financial Risk Management

Introduction

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the Board. While the Company is exposed to various types of risks, the most important among them are liquidity risk, interest rate risk, credit risk, regulatory risk and operational risk. The measurement, monitoring and management of risks remain a key focus area for the Company.

Risk Management Framework

In order to mitigate/transfer the risks, the Company has adopted a Risk Management Policy which provides a framework for identification, assessment, mitigation and reporting of risks.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

Board level Risk Management Committee of the Company identifies, reviews and controls key risk areas, across the entire organization.

The role of the Risk Management Committee shall be:

1. review the risk management policies and system periodically and report to the Board.
2. ensure that the risk management system is established, implemented and maintained in accordance with this Policy.
3. assign the responsibilities to Chief Risk Officer of the Company in relation to risk identification and its management.

The Board shall be the ultimate Authority to approve the strategic plans and objectives for Risk Management and Risk Philosophy.

The Company has exposure to following risks arising from the financial instruments:

Note 35.A.1 Credit Risk

Credit risk refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises primarily from financial assets such as loans, investments, balances with banks and other financials assets.

The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties. The Company ensures effective monitoring of credit facilities through a portfolio quality review framework.

The Company monitors and manages credit risk on loans at an individual borrower level. The credit risk for individual borrowers is being managed at portfolio level for Housing Loans. The Company has a structured and standardized credit approval process, which includes a well-established procedure of comprehensive credit appraisal. The Risk Management Policy addresses the recognition, monitoring and reporting of the Credit risk.

Company's customers for housing loans are primarily salaried and self-employed individuals. All retail loans are also subjected to risk based pricing wherein the individual cases are graded on a credit score linked to multiple parameters of appraisal.

The Company's credit officers evaluate credit proposals, basis factors such as the borrower's income & obligations, the loan-to-value ratio, Fixed obligation to income ratio and demographic parameters subject to regulatory guidelines.

Various process controls such as KYC Check, CERSAI database scrubbing, Credit Bureau Report analysis are undertaken prior to approval of a loan. In addition External agencies such as field investigation agencies facilitate a comprehensive due diligence process including visits to offices and homes, Panel Advocates confirmed that the title to the property to be mortgaged with GICHF are clear and marketable and free from all encumbrances, charges etc and Panel valuers are entrusted with the job of ascertaining the genuineness of market value of property as it is an important factor in determining the loan amount.

The loans are fully secured and have full recourse against the borrower. The Company has an equitable mortgage over the borrowers property. Wherever the state laws provide, the memorandum of deposit of title deeds are also registered.

Note 35.A.1 (I) Concentrations of credit risk

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.

72% (Previous year 72%) of the Company's loan outstanding is from borrower's residing across 5 various states of India. The Company has taken a special contingency insurance policy to insured Borrower's collateral security."

Note 35.A.1 (II) Credit Risk Grading of loans and loss allowances

For effective risk Management, the company monitors its portfolio, based on product, underlying security and credit risk characteristics. The credit quality review process aims to allow the Company to assess the potential loss as a result of the risks to which it is exposed and take corrective actions.

The Company applies general approach to provide for credit losses prescribed by Ind AS 109, which provides to recognise 12-months expected credit losses where credit risk has not increased significantly since initial recognition and to recognise lifetime expected

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

credit losses for financial instruments for which there has been significant increase in credit risk since initial recognition, considering all reasonable present and forward looking information, including that of forward looking.

Additionally, the Company evaluates risk based on staging as defined below:

The company categorises loan assets into stages based on the Days Past Due status:

- Stage 1: [0-31 days Past Due] It represents exposures where there has not been a significant increase in credit risk since initial recognition and that were not credit impaired upon origination.
- Stage 2: [32-90 days Past Due] The Company collectively assesses ECL on exposures where there has been a significant increase in credit risk since initial recognition but are not credit impaired. For these exposures, the Company recognises as a collective provision, a lifetime ECL (i.e. reflecting the remaining lifetime of the financial asset)
- Stage 3: [More than 90 days Past Due] The Company identifies, both collectively and individually, ECL on those exposures that are assessed as credit impaired based on whether one or more events, that have a detrimental impact on the estimated future cash flows of that asset have occurred.

Stage wise Categorisation of Loan Assets:

Stage 3	98,424	71,594
Total	1,294,797	1,319,017

For reconciliations from opening to closing balance of loans and expected credit loss allowance for loans refer Note 6.2.

Financial Assets measured at Simplified Approach

The Company follows 'simplified approach' for recognition of impairment loss allowance on Cash and Cash Equivalents, Bank Balances, Trade Receivables, and Other Financial Assets. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

The Management of the Company expects no defaults in the above mentioned financial assets and insignificant history of defaults has been observed by the Management in the previous years on such Financial Assets. Hence no ECL has been recognised on the above mentioned Financial assets as at the reporting date except other financials assets.

Note 35.A.2 Liquidity Risk

Liquidity risk is the risk resulting from an Organization's inability to meet its obligations as they become due, because of difficulty in liquidating assets (market liquidity risk) or in obtaining adequate funding. The assessment includes analysis of sources and uses of funds, an understanding of the funding markets in which the entity operates and an assessment of the efficacy of a contingency funding plan for events that could arise. Measuring and managing liquidity needs are vital for effective operations of Housing Finance Company. The Company has also constituted Board Level Asset Liability Management (ALM) Committee which measures not only the liquidity positions of Company on on-going basis but also examines how liquidity requirements are likely to revive under different scenarios.

Note 35.A.3 (III) Competitions Risk

Competition Risk is the risk to the market share and profitability arising due to competition. It is present across all the businesses and across all the economic cycle with the intensity of competition risk varying due to several factors, like, barriers to entry, industry growth potential, degree of competition, etc.

The Company's business environment is characterized by increased youth population, growing economy, increased urbanization, Government incentives, acceptability of credit in society and rise in nuclear families. Due to all these reasons, the Housing Finance industry has seen a higher growth rate than overall economy and several other industries since past several years. This has led to increase in competition and in turn increased pressure on the existing Companies to maintain/grow market share and profitability. In order to mitigate the risk arising due to competition, the Company has customer centric approach coupled with state of art infrastructure including IT interface.

Note 42 Impact of COVID 19

The Covid-19 pandemic has impacted most economies and banking systems globally, including India. The nation-wide lockdown in April-May 2020 substantially impacted economic activity. The easing of lockdown measures subsequently led to gradual improvement in economic activity and progress towards normalcy. These developments resulted in regulatory measures like moratorium on payment of dues and standstill in asset classification to mitigate the economic consequences on borrow etc. It also resulted in increase in provisioning reflecting higher actual and expected additions to non-performing loans following the cessation of moratorium and asset classification standstill. The current second wave of Covid-19 pandemic, where the number of new cases has increased significantly in India, has resulted in re-imposition of localised/regional lockdown measures in various parts of the country. The impact of the second wave on the Company’s results remains uncertain and dependent on future developments, which are often outside of the Company’s control and accordingly, actuals may differ from the estimates used in the preparation of the financial statements on the reporting date.

Notes Forming Part of Financial Statements

for the year ended March 31, 2021

The impact, including credit quality and provision, of the Covid-19 pandemic, on company, is uncertain and will depend on the spread of Covid-19, the effectiveness of current and future steps taken by the governments and central bank to mitigate the economic impact, steps taken by the company and the time it takes for economic activities to return to pre-pandemic levels. The Companies capital and liquidity position is strong.

In terms of the requirement as per RBI notification no. RBI/2019-20/170 DOR (NBFC).CC.PD.No.109/22.10.106/2019-20 dated March 13, 2020 on Implementation of Indian Accounting Standards, Housing Finance Companies (HFCs) are required to create an impairment reserve for any shortfall in impairment allowances under Ind AS 109 and Income Recognition, Asset Classification and Provisioning (IRACP) norms (including provision on standard assets). The impairment allowances under Ind AS 109 made by the corporation exceeds the total provision required under IRACP (including standard asset provisioning), as at March 31, 2021 and accordingly, no amount is required to be transferred to impairment reserve.

The Company has used Applications made under Restructuring Scheme 1.0 on loans as early indicators suggesting higher probability of defaults and loss given default and accordingly accounted for commensurate expected credit loss. Consequently, all cases classified as stage 3 in the ECL matrix may not necessary be Substandard/Doubtful/Loss Assets. The disclosures made above for classifications of loans into Stage 1, 2 & 3 is as per ECL Matrix of the Company.
